

**Hostivaři Tram line
retaining walls**

OVERVIEW

**Concrete repair of tram line retaining
walls Hostivaři**

Concrete repair of tram line retaining walls in Hostivaři Czech Republic. Orlitech mesh was chosen due to its lightweight and corrosion resistance.

Approx. 4000 m2 of Orlitech composite mesh 6 150×150

Advantages of composite

- No Corrosion
- Ease of handling on site – 6 x lighter than steel
- less cover of sprayed concrete
- time savings
- overall cost savings

ORLITECH COMPOSITES – LIGHTER – FASTER – STRONGER – LOWER EMBODIED CARBON
